# Energy Policy No. 60-101 Update

2016

## Project Summary

The City updated its corporate energy policy in 2016 to demonstrate its ongoing commitment to improving energy efficiency. The update saw the addition of:

- Responsibilities for staff in incorporate energy efficiency into their day to day routines;
- The use of energy management, energy costs and lifecycle cost analysis as part of the annual budget and long term financial plan
- Quarterly meetings of key departmental resources as an Energy Management Steering Group
