- Five Year Financial Plan (2016 to 2020) Bylaw 3849, 2016

Downtown Farmers' Market

Community Planning Goals Guide City's Financial Process

Cranbrook is a diverse community that enjoys a high standard of municipal programs and services aimed at maintaining and improving quality of life for all residents.

Goals such as affordability, a strengthened economy, improved infrastructure, utility and environmental services, support of recreation, culture and the arts, as well as social responsibility help guide the City of Cranbrook in overseeing an annual \$70 million budget.

Within Council's policy directions and key objectives, the budget process is guided by the Finance and Computer Services Department (Finance) and spans seven departments. Each department is responsible for overseeing a multitude of programs that keep City operations running smoothly. All of these public services, from road improvements to public transit and maintaining parks and green spaces, have costs associated with them.

Investment in the local economy and improving civic pride have been seen through improvements of the downtown, improvements at the Airport, arena upgrades, upgrades to roads, water distribution systems, and sanitary sewer collection systems, expansion of the trail network and community parks improvements.

The City focuses on keeping property taxes affordable while maintaining or improving levels of service. This fine balance has been achieved through efficiencies within City operations such as greater utilization of in-house services, utilizing municipal reserves, increasing user fees and the pursuit of senior level government grants.

The City continues to invest in technology that improves the efficiency of its operations and its ability to serve the public.

Significant work has been done in the area of asset management. The City's ability to make sound infrastructure replacement decisions based on a current database of information has resulted in financially responsible infrastructure choices.

Once the Senior Management team completes their review following the policy direction and priorities of Council, the Budget is presented to Council and the public in a series of open budget meetings plus a special Budget meeting to consider public concerns. Council debates the issues presented and directs Administration on final Budget decisions. The Financial Plan is approved by bylaw prior to setting the tax rates in May.

The City administers five funds: the General Fund, Water Fund, Sewer Fund, Solid Waste Fund and Airport Fund. In broad terms, the General Fund represents the cost of providing all the municipal services other than utilities and airport. Costs that are in excess of user fees, and other non-tax revenue, are funded by property taxes. The *Community Charter* requires that all revenue sources be identified and the revenue must cover all anticipated expenditures. The *Community Charter* does not allow the City to budget for a deficit.

City Programs

To serve the citizens of Cranbrook, the City operations are divided into programs. These programs represent everything the City does as part of its annual operations. These include police and fire protection, road maintenance, parks and recreation programs, development services, and provision of the water, solid waste management and sewer utilities, as well as administrative services that support City Council and the other operating programs such as human resources, payroll, accounting, and information technology.

Corporate Management

Within the corporate management structure, each program is assigned to a department. Each department has a Director who oversees the operations of the programs within his/her authority. There are seven departments, each of which reports to the Chief Administrative Officer. They are:

- Corporate Services
- Finance and Computer Services
- Public Works
- Leisure Services
- Engineering & Development Services
- Fire & Emergency Services
- Airport

The City contracts police services through the RCMP.

Functional

A function is a broad group of like services.

- Solid Waste Management
- Policing
- Fire Protection
- Infrastructure Maintenance
- Public Transit
- Parks, Recreation and Culture
- Environmental Protection
- Development & Planning
- Legislative and Enforcement
- Corporate Administration
- Water Utility
- Sewer Utility
- Airport
- Cemetery Operations
- Debt Servicing
- Capital Expenditures

Financial Plan Process and Timing

The 2016 to 2020 Financial Plan process began in the fall of 2015. Guidelines, a timetable and current operating reports were sent to all the Directors. A capital plan and financial plan for each Department or function was prepared by the Directors. The CAO and senior finance staff met with City Council in October to identify Council's priorities for the coming years.

Special Council Meetings were held during December, January, and February, and the public was welcomed to attend. During these meetings Council reviewed the budget information and directed staff to make adjustments to the Financial Plan to line up with Council's objectives and priorities.

In April, Council adopted the 2016 to 2020 Five Year Financial Plan Bylaw, and in May they will consider the Cranbrook Tax Rates Bylaw at an open Council meeting.

Budget

Budget planning starts with an assumption that services will remain at the same levels as in the previous year. Then Finance begins costing for inflationary changes or contractual obligations within each department. Directors meet with their managers and review year-to-date actual costs against budgets and see if there are any overruns, areas that need more resources to maintain service levels or items that can be cut or reduced while still maintaining service levels.

The operating budget is prepared on an incremental basis. This means it focuses on changes from the previous year's operations. These changes might include new or expanded programs at Council's discretion, non-controllable cost increases, salary and employment benefit increases related to Collective Agreements and the removal or addition of one-time or recurring revenues and expenditures from the preceding year.

Property Taxes

Service Levels

The majority of the City's revenue is obtained through property taxes. When preparing the Budget, staff first determines the amount of revenue required to provide all the desired municipal services to our residents. Staff then determines the amount of revenue (other than property taxes) the City can expect to receive through fees and charges, federal and provincial government grants, etc. The difference between the budgeted expenditures and the other revenue represents the amount of property tax revenue the City must collect to provide the services to the levels prescribed by Council. To adjust the amount of property taxes required, the City must adjust the service levels provided. The challenge is to determine the appropriate service level weighed against the cost of providing that service. When the cost of providing a service increases (e.g. through inflation, changes in statutory requirements or product cost increases), the City must either raise more revenue to provide the same level of service or reduce the level of service provided.

The Tax Rate

The City determines the “tax rate” (a charge per \$1,000 of assessed property value) by dividing the sum of all the assessed property values in the City by the amount of property tax revenue that must be collected. The “tax rate” is simply a means of determining how much each individual property owner must pay to receive the package of services provided by the City. The rationale for this approach is that owners of larger properties pay more than owners of smaller properties, or that individuals owning larger homes, in general, have an ability to pay more than those in lesser valued properties. Consequently, we must calculate the tax rate each year based on the revenue the City must collect and the assessed values of all the properties in the City at that time. If the amount of property taxes required by the City increases and assessed values don’t change, or they drop, the tax rate will go up. If assessed values go up, property tax rates may stay the same or increase marginally. The increase to the tax rate would depend on how much assessed values went up relative to how much more the City needed to collect in taxation revenue.

Taxation Levels

The 2016 to 2020 Financial Plan includes budgeted property tax revenues for general municipal purposes as follows:

<u>Year</u>	<u>Taxation Revenue (Levy)</u>
2016	\$ 24,472,398
2017	25,717,467
2018	27,106,718
2019	28,484,988
2020	29,273,148

The proposed increase to the property tax levy, after non-market change (new construction) of \$100,000 is 1.26% in 2016 and 3.68% in 2017. A 1% change in the 2016 levy amounts to approximately \$238,000. The dedicated Road Improvement Tax that was introduced in 2010 will continue through all five years of the plan, meaning that an additional 1% property tax will be assessed and set aside for road work only. Thus, the projected general property tax increase for 2016 is 2.26% (4.68% in 2017). It is estimated that the 1% Road Improvement Tax will fund just under \$10 million of the \$32.7 million in capital road projects planned for 2016 through 2020.

Increase in General Municipal Property Taxes

The average general municipal property tax increase (excluding school and other non-city taxes) for taxpayers is projected to be 1.26% or about \$9.39 per \$100,000 of assessed value for residential properties, unless City Council chooses to change the distribution of property taxes. The 1% dedicated Road Improvement Tax equates to about \$7.45 per \$100,000 of assessed value for residential property in 2016. The combined 2016 general municipal property tax increase is 2.26% or \$16.84 per \$100,000 of assessed value.

The average assessed value for a residential property in Cranbrook is \$269,000 (\$253,000 in 2015). The projected municipal taxes for an average home will be about \$2,050, or \$5.62 per day for all municipal services, before the Provincial Home Owner Grant.

Eligible residential property owners can apply for an annual home owner grant which is deducted from their total tax bill. The grant amounts are \$770 – basic, and \$1,045 – senior/disability.

Distribution of Property Taxes

As per Section 165(3.1) of the *Community Charter*, the distribution of general municipal property taxes among the classes is estimated to be:

<u>Class</u>		<u>2016</u>
01	Residential	1.00
02	Utilities	6.62
05	Light Industry	2.69
06	Business and other	2.65
08	Rec/Non Profit	2.42
09	Farm	2.81

The above estimation is based on the 2015 distribution. On an annual basis, after the current year's budget has been finalized, City Council reviews the distribution of property taxes among property classes.

Utility and Parcel Tax Rates

The monthly utility fees for water, sewer, and solid waste (which were \$59.50 per month in 2015) are projected to be:

<u>Year</u>	<u>Monthly Rate</u>	<u>Revenue</u>
2016	\$ 59.50	\$ 7,208,755
2017	59.50	7,230,381
2018	59.50	7,252,072
2019	60.50	7,393,295
2020	60.50	7,415,475

The annual parcel tax charge (which was \$13 in 2015) is projected to be:

<u>Year</u>	<u>Rate per Taxable Meter Frontage</u>	<u>Revenue</u>	<u>Annual charge to average home (based on 15.25 m. lot)</u>
2016	\$ 13.00	\$ 2,287,463	\$ 198
2017	13.50	2,379,104	206
2018	15.50	2,736,371	237
2019	15.50	2,741,844	237
2020	15.50	2,747,327	237

Estimated growth rates of 0.20%-0.30% have been factored into the above revenue for the years 2016 to 2020.

For an average home in Cranbrook, the projected 2016 utility and parcel tax fee will be about \$912 (or \$2.50 per day).

A 5% discount off the total annual utility bill will be provided to those property owners who pay in full before the end of February each year.

Capital Projects

The amounts designated for municipal capital expenditures over the next five years are:

2016 -	\$ 15,113,042
2017 -	19,235,512
2018 -	17,814,073
2019 -	9,929,640
2020 -	41,454,990

Capital purchases for all years have been summarized on the attached schedules.

Road Program

The 2016 budget includes \$4,072,175 for the capital roads program and road recap program. 2017 through 2020 will see another \$28,666,102 in capital roads projects (pending approval to borrow in 2017).

The funding breakdown for the 2016 capital roads program is:

Taxation and Utility Fees	\$2,000,000
Municipal Infrastructure Reserve	350,000
GST Infrastructure Reserve	250,000
1% Roads Improvement Tax	1,472,175

Details of the 2016 preliminary road improvement program, pending firm construction pricing and other considerations, will be published at a later date.

Western Financial Place

The City took over operation of the recreation complex in March, 2007. In 2012, the building was renamed Western Financial Place, after a naming rights agreement was reached with Western Financial Group. Projected revenues in 2016 from WFP, including pool operations, are \$884,000. Operating expenses are estimated to be \$3,042,790 before debt payments of \$1,619,441. In 2015, funds from the Naming Rights Reserve were used to replace the arena ice floor covering and purchase a new sound system. 2016 reserve funds will be used to install sound baffling.

During the 2015 budget process, Council resolved to eliminate the resident/non-resident (commonly known as the "two-tier") rate structure of Leisure Services' fees and charges. Leisure Services Fees and Charges Bylaw 3817, 2015 reflects this fee elimination.

Regional Landfill

The annual payment to the RDEK is expected to be \$1,650,000 in the years 2016 through 2020 for the regional landfill fee.

Financial Support

The City provides funding to non-profit organizations and agencies that provide services to the community including the Cranbrook Public Library, Key City Theatre, Chamber of Commerce, Cranbrook History Centre, and Cranbrook Curling Club. In 2016, the funding is budgeted to be \$1,008,942.

In addition, City Council has approved permissive tax exemptions to not-for-profit organizations in 2016 in the estimated amount of \$219,547.

Listings of the 2016 grants in aid and property tax exemptions are attached.

Public Transit

In partnership with BC Transit, the City continues to provide public transit and para-transit to the residents of Cranbrook. The cost of this service is shared with BC Transit. The City's share for 2016 is budgeted at \$670,500 net of revenue.

RCMP

The City has a contract with the RCMP to provide police services for the City. The 2016 contract for 26 Officers is budgeted at \$4,157,544 (\$3,995,660 in 2015). Over \$435,000 has been budgeted in 2016 for necessary building and security upgrades at the detachment.

Reserve Fund Activity

Each year the City sets aside money in reserve funds to help pay for large capital projects in upcoming years. Budgeted deposits to reserve funds in 2016 amount to \$3,713,239. Some of the larger deposits include:

\$ 900,000	Recapitalization reserve for municipal capital assets
867,465	Federal gas tax transfer to fund eligible projects
643,083	Airport Improvement Fee
200,000	Solid Waste recapitalization
190,000	GST rebate for residential area roads infrastructure
150,000	Moir Park Development
100,000	Water fund recapitalization
100,000	Sewer fund recapitalization
99,744	Library building reserve
60,000	Carbon Offset Reserve to support carbon emissions reduction

Each year reserve funds help pay for projects like capital road work, storm sewer rehabilitation, park refurbishments, and equipment replacement. Transfers from reserves of \$3,308,524 are being budgeted in 2016 for various projects including:

\$ 855,000	Public Works equipment replacement
600,000	Capital Roads Program
512,745	Western Financial Place improvement projects
299,930	Airport Expansion debt servicing
250,000	Drainage Repairs
100,000	Sidewalk Program
93,500	Fire Fighting Equipment

Borrowing

Over the five-year period 2016 to 2020, the City plans to borrow approximately \$31,626,776 for various capital projects as follows:

<u>Capital Project</u>	<u>Year</u>	<u>Amount</u> *	<u>Term</u>	<u>Annual Payment</u>
Water tanker truck (Fire)	2016	400,000	5 years	84,715
MCC Replacement - Irrigation Pump Station	2016	700,000	20 years	45,753
RCMP Building - Cell blocks	2016	239,809	10 years	27,636
Garbage Truck - Mechanized Pickup Truck (Incl. Bins)	2017	992,000	5 years	218,240
Capital Road Program (incl. underlying water and sewer infrastructure)	2017	10,000,000	20 years	664,070
Fire Engine	2017	670,000	5 years	146,953
Curling Arena Chiller & Condenser	2017	240,000	10 years	27,658
Transfer Pipeline - Phase II	2018	1,750,000	30 years	86,400
Fire Ladder Truck	2019	1,400,000	15 years	114,555
WFP Main Complex Upgrades	2019	1,136,000	25 years	63,246
Bush Truck - Fire Services	2020	214,000	5 years	44,180
Moir Park Ball Diamonds - Bleachers and Lighting	2020	385,000	20 years	25,164
WFP Main Complex - Roof	2020	2,500,000	20 years	163,402
Twinning Supply from Phillips Reservoir	2020	2,000,000	20 years	130,722
Gold Creek Reservoir Diversion	2020	2,333,300	20 years	152,500
Water Treatment Plant	2020	<u>6,666,667</u>	20 years	435,740
	Total	31,626,776		

*MFA Fees of 1.6% will be applied to each debt issue.

Salaries and Wages

A Collective Agreement with CUPE 2090 is currently in effect for the period of March 1, 2012 to February 28, 2017. This Collective Agreement provides negotiated increases to the CUPE wage scales on March 1st of each year; 2.0% in each of 2012, 2013 and 2014, 2.2% in 2015 and 2.3% in 2016. An equivalent increase to the CUPE negotiated increases will also be applied to the Exempt salary structure.

The City's Collective Agreement with Cranbrook Fire Fighters Local 1253 expired on December 31, 2014 and negotiations for a new collective agreement are proceeding and progress has been made. The previous collective agreement continues to apply while a new collective agreement is negotiated.

Amortization of Capital Assets

Effective 2009, the Public Sector accounting rules required the City to begin amortizing (depreciating) its tangible assets over their useful life. Amortization for 2016 has been estimated at about \$7,000,000 and has been included in the Financial Plan.

Corporation of the City of Cranbrook
Schedule "A" to accompany
Five Year Financial Plan (2016 to 2020) Bylaw No. 3849, 2016

Distribution of Property Taxes by Class:

Class		Multiplier	% of Taxes
01	Residential	1.00	60.79%
02	Utilities	6.62	1.34%
05	Light Industry	2.69	0.97%
06	Business and other	2.65	36.32%
08	Recreation/Non-profit	2.52	0.58%
09	Farm	2.81	0.00%

The above estimation is based on the 2015 distribution. On an annual basis, City Council reviews the distribution of property taxes among property classes.

Permissive Exemptions:

The guiding concept behind the approval of permissive property tax exemptions, is to give Council a means of supporting organizations within the community that further the City's objectives of enhancing the quality of life for its citizens. Organizations are subject to an annual eligibility review commencing with a request for assistance in writing. In order to be considered for a permissive property tax exemption, organizations must qualify for an exemption under Part 7 of the *Community Charter* and not be involved in a commercial venture. There is no obligation on the part of Council to grant the exemptions.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
